

**LISTING OF CLAIMS**

Claims 1-12 (Cancelled)

Claim 13 (Currently Amended): A ~~mechanically scrollable~~ display comprising a first winder around which a rewritable display medium is wound, and a second winder which winds up the rewritable medium unwound from the first winder,

wherein at least a write unit for writing information to said display medium and an erase unit for erasing information from said display medium are disposed near an entrance/exit portion of either of said first and second winders;

further wherein the display is mechanically scrollable.

Claim 14 (Currently Amended): A ~~mechanically scrollable~~ display comprising a first winder around which a rewritable display medium is wound, and a second winder which winds up the rewritable medium unwound from the first winder,

wherein at least an erase unit for erasing information from said display medium is disposed near an entrance/exit portion of either of said first and second winders;

further wherein the display is mechanically scrollable.

Claim 15 (Currently Amended): A ~~mechanically scrollable~~ display comprising a first winder around which a rewritable display medium is wound, and a second winder which winds up the rewritable medium unwound from the first winder,

wherein a write unit for writing information to said display medium is disposed near an entrance/exit portion of said first winder, and an erase unit for erasing information from said display medium is disposed near an entrance/exit portion of said second winder;

further wherein the display is mechanically scrollable.

Claim 16 (Currently Amended): A ~~mechanically scrollable~~ display as claimed in claim 13 or 15,

wherein said display medium allows information to be written thereto by action of heat and to be erased therefrom by action of an electric field, said write unit comprises a heating means for applying heat to said display medium to write information thereto, and said erase unit comprises an electric-field application means for applying an electric field to said display medium to erase information therefrom.

Claim 17 (Currently Amended): A ~~mechanically-rollable~~ display as claimed in claim 13, 14 or 15, wherein said display medium is formed with a polymer-dispersed liquid crystal film.

Claim 18 (New): A display as claimed in claim 13, wherein the display is portable and capable of displaying information in a wide screen.

Claim 19 (New): A display as claimed in claim 14, wherein the display is portable and capable of displaying information in a wide screen.

Claim 20 (New): A display as claimed in claim 15, wherein the display is portable and capable of displaying information in a wide screen.
